8 March 1982

MEMORANDUM FOR: Acting National Intelligence Officer for USSR-EE  
FROM: Director of Central Intelligence  
SUBJECT: Draft SNIE on Poland's Prospects

1. I have the draft SNIE on Poland's prospects. One additional topic I would like to see covered is the impact of Poland's economic disarray on the Soviet Union and the other Bloc countries in terms of the dependence of their economies and production schedules on materials and components for which they rely on Poland.

2. I attach a memorandum from [redacted] on this subject.  
I suggest having a talk with him about it.
